

Yamaha TR 14 A 4 a II

Mundstück / Trompete (Standard, 16.68mm, 3.65mm)

Model Number System
LineupStandard SeriesModel No. Rim Inner
Diameter (mm) Throat
(mm) Characteristics TR-5A4 15.90 3.65
Extremely small inner rim diameter. Flat and
wide. Small cup volume. Ideal for lead
trumpet. TR-6A4a 15.90 3.65 Very shallow
cup for easy high notes. Good for big-band type
lead
trumpet. TR-7A4 16.24 3.65 Relatively
small inner rim diameter, but still flexible.
Perfect for piccolo or lead
trumpet. TR-7B4 16.08 3.72 Relatively
large throat diameter with a sharp shoulder.
Bright sound with easy high
notes. TR-8C4 16.19 3.65 Good for
all-around playing, including solos. Combines
an extended high range with rich
lows. TR-9C4 16.28 3.65 Somewhere
between the 8C4 and 11C4, affording easy
playability over a wide range. Well-defined rim
bite for easy blowing and extended
endurance. TR-11A4 16.46 3.65 Medium
rim diameter with a shallow cup for easy high
notes. Ideal for piccolo trumpet and jazz
idioms. TR-11A5 16.38 3.65 Wide rim
shallow cup with a slightly large back bore
delivers a rich upper range with ease.
Well-suited for piccolo
trumpet. TR-11B4 16.46 3.65 A somewhat

shallow cup and medium rim for extra
endurance. Brilliant tone. Suitable for D, Eb,
and piccolo
trumpets. TR-11 16.32 3.72 Relatively
large throat with a sharp shoulder. Easy to play
over the entire range, with a fairly bright sound.
Good for
beginners. TR-11C4 16.46 3.65 Clean bite
and well-balanced rim for all-around playing.
Standard model for beginners and advanced
players. TR-13A4a 16.20 3.65 Relatively
flat rim with a shallow cup for fast response.
Ideal for piccolo and lead
trumpet. TR-13B4 16.63 3.65 Superb
clarity for large ensembles and orchestras.
Well-matched to C trumpets. Powerful
sound. TR-13C4 16.50 3.65 Medium rim
diameter and cup volume for allaround playing.
Good for ensembles and orchestras. Fairly dark
sound. TR-14A4a 16.68 3.65 Fast-response
high range and powerful sound. Ideal for
piccolo or lead
trumpet. TR-14B4 16.85 3.65 Relatively
large rim diameter and shallow cup.
Outstanding overall balance for all musical
genres. TR-14C4 16.88 3.65 Rim designed

Yamaha TR 14 A 4 a II Mundstück / Trompete (Standard, 16.68mm, 3.65mm)

Fortsetzung von Seite 1:

for outstanding facility and flexibility. Popular in ensembles and orchestras. Can produce high volume. TR-14D4 16.80 3.65 A fairly deep cup with a medium rim. Rich, somewhat dark tone. Well suited to orchestral playing. TR-14E4 16.84 3.88 The 14B4 rim with a unique cup for a soft tone. For rotary trumpets. Large backbore and throat. TR-15B4 16.96 3.65 Fairly large rim diameter with a shallower cup than the 15C4. Outstanding flexibility. Suits Bb, C, D, and Eb trumpets. TR-15C4 16.98 3.65 Clean rim bite with a standard U-shaped cup. Bright, powerful tone. For advanced players. TR-15E4 16.92 3.88 Rim designed for outstanding facility and flexibility. For rotary trumpets. Between the 14E4 and 16E4 in size. TR-16C4 17.00 3.65 Large rim and medium cup for easy playability over a wide range. High volume. Excellent for symphony orchestra players. TR-16D 17.14 3.65 A deeper cup than the 16C4. Soft tone. Mellow-but-solid sound that is ideal for orchestras. TR-16E4 17.14 3.88 The 16C4 rim with a unique deep cup. Heavy tone. For rotary trumpets. Maximum inner rim diameter. TR-17B4 17.30 3.65 A good combination of large rim and relatively shallow cup. Powerful sound. A good choice for orchestra first-chair players. TR-17C4 17.30 3.65 Deeper cup than the 17B4. Powerful, dark sound. A popular choice with symphony orchestra players. TR-17D4 17.30 3.65 An even deeper cup than the 17C4 for an exceptionally dark, heavy tone. Good for symphony orchestra players who prefer a mellow sound. TR-18C4 17.42 3.65 High volume with an exceptionally large inner rim diameter and deep cup. For advanced orchestra players.
