

Electro Harmonix NANO METAL MUFF

Effektgerät (Distortion mit Noise Gate)

The EHX Nano Metal Muff was built for the player who demands nothing less than hard-hitting distortion and an intense, aggressive sound. It's a combination of weaponized distortion and an extremely powerful EQ section that provides all the flexibility and tone-shaping needed to dial in an array of ultra-heavy sounds.

The Nano Metal Muff's newly designed noise gate is a superb addition to this high-gain pedal and eliminates unwanted hum when you stop playing. It features a noise floor threshold control (GATE) and its own LED to indicate when the gate is engaged.

A compact footprint and intelligent, straight forward controls complete the picture.

- * Voiced for the heavy metal player
 - * Compact, pedalboard friendly footprint
 - * Extensive EQ control: Bass +/- 14dB of cut or boost, Mid +/- 15dB and Treble +/- 10dB
 - * VOL (volume) sets the pedal's output volume level
 - * DIST adjusts input gain and distortion
 - * Noise gate eliminates unwanted noise and includes an LED to indicate when the output signal is muted
 - * 9V battery included
